

We have introduced a new way of submitting scores for county selection. This has been done to reduce the overhead of collecting & processing the submitted data.

The good news is that if you have a smart phone you will have the opportunity to add the score on the shooting field.

Log onto <http://hertsarchery.org.uk>

You will see a menu bar across the top of the page. Highlight documents and then click on Score Submission Form as shown in fig 1.
